

Special offer for coach tour operators 2022

A unique atmosphere creates unique experiences. With everything from an exotic backdrop through to delectable cuisine, Tropenhaus Frutigen ticks all the boxes for a successful coach excursion. It is open all year, very easy to get to and has plenty of parking space for buses.

Tropenhaus Frutigen

70 litres of 18°C mountain water flow out of the Lötschberg base tunnel every second. In the Tropenhaus, this heat energy is used in a meaningful way: the extensive, publicly accessible facility is used to rear heat-loving fish and plants and highlight the importance of alternative ways of dealing with energy.

Clear knowledge transfer

The Tropenhaus offers an exciting combination of sustainably cultivated exotic plants, aquaculture and clear knowledge transfer in the heart of the mountains. The 1,000 m² exhibition raises guests' awareness of the topics with impressive presentations, interactive objects and detailed information. With everything from an exotic backdrop through to delectable cuisine, Tropenhaus Frutigen ticks all the boxes for a successful event. It is open all year, very easy to get to and has plenty of parking spaces.
